

RDM 7000i Series Check Scanner

The EC7000i Series is the industry's first feature-rich, low cost, two-sided scanner. Based on RDM's EC6000i® Series with its small footprint, connectivity to the most popular POS terminals, and industry leading MICR and image technology, the EC7000i Series provides a low cost, two-sided imaging solution for merchants and low volume billers who want to take advantage of the opportunities presented by Check 21.

The EC7000i Series scanners feature a standard USB port, in addition to a wide variety of optional features such as Franking Acknowledgment printer, internal alphanumeric OCR A and B character recognition, OCR E13B MICR Assist, and 3-track bi-directional Magnetic Stripe Reader (MSR), positioning it as one of the most versatile and reliable products in the marketplace.

Key Features Include:

- Includes all of the industry leading features of RDM's EC6000i Series
- Captures a high-quality two-sided binary image of the check in seconds
- Lowest cost two-sided imager in the industry Optional Franking Acknowledgement Printer
- Utilizes RDM's patented Progressive MICR Method delivering the highest MICR read rate in the industry
- Optional bi-directional Magnetic Stripe Reader (MSR)
- Standard USB connectivity provides flexible connection to PC-based applications
- Standard 2-year manufacturer warranty
