

S8 PIN Pad

cost-effective, debit transaction PIN pad for Hypercom terminals

S8 PIN pad Features:

- ❑ Compact, handheld, high security PIN pad peripheral
- ❑ Complies with international security standards and payment scheme specifications
- ❑ Two management options
 - Master/Session Working Key
 - Derived Unique Key Per Transaction (DUKPT)
- ❑ Four programmable function keys allow simplified operations
- ❑ Impact-resistant construction
- ❑ Easy-to-read LCD display
- ❑ Embossed membrane keypad that fits snugly in hand
- ❑ Added security with entire program code on one microchip
- ❑ Widely adopted globally, proven design
- ❑ Compatible with all Hypercom terminals

The Hypercom® S8 PIN Pad delivers cost-effective, full-feature debit transaction support and connects easily with all Hypercom terminals, electronic cash registers (ECRs) or third-party POS systems using a Hypercom adapter. Multiple S8 PIN Pads can be connected via LAN with a Hypercom LAN controller or Network Access Controller (NAC).

The S8 PIN Pad also has a wide range of hardware and software features that ensure dependable encryption and PIN security. Whether used for stand-alone terminal support, integrated ECR support or stand-beside LAN terminal support, the S8 PIN Pad by Hypercom is fully reliable and highly secure for all debit transactions.

Configuration Options:

Stand-alone terminal support

Integrated ECR support

Stand-beside LAN terminal support
