Dassault Talento Al-In-One Credit Card Terminal & Printer

The Dassault Talento all-in-one credit card processing Printer/Terminal terminal answers all EFT needs for the Credit only environment. Support of EZ WARE features exists for all Credit functionality. The Talento device provides a terminal and printer, all in one small footprint. Very portable, use your merchant account service on the go!

This device can come in several memory models as functionality requires. Smart Card support can also be available in this terminal

Dassault Talento's retail/restaurant application allows credit, debit, EBT, check authorization, electronic check, mail order/phone order, and smart card acceptance. Talento offers numerous features that provide a flexible, yet secure transaction process.

The big, bright screen, the simple keyboard with ATM-like function keys and the contoured ergonomic design make the Talento extremely user friendly. The powerful multitasking application running inside Talento reduces customer and operator wait time.

The Thales Talento terminal utilizes the most advanced processor in the industry and a printer that is unequaled in reliability. The Talento is the perfect terminal for retail businesses.

The Talento terminal uses an advanced 16 bit microprocessor that allows it to perform multiple tasks at once. The Talento will "pre-dial" your credit card processor and begin to print the receipt before you have even finished entering in all of the transaction information. This can reduce transaction time by as much as 60%.

- Fastest transaction times
- Reliable printer
- Easy-to-use design with 5 one-touch buttons
- Quick load automatic paper feeder
- Quiet thermal printer

Meeting all of your point-of-sale needs!
